Johnsons of Whixley	0005	Nursery

About this document:

One of the actions listed in the [Plant Healthy Certification Scheme - soft launch, Pioneer Group and CV-19](#) (30th June 2020) was to keep an up-to-date registrants / applicants list on the Plant Health website.

Certified businesses have successfully completed and passed a Plant Healthy audit.

Listing the applicants demonstrates that these businesses have officially applied to a Certification Body and are thus committed to adopting high voluntary plant health and biosecurity standards. This enables their commitment to be visible during the Pioneer phase which has seen considerable delays and disruption due to CV-19.
